

# Job Vacancy III

## MANUFACTURING TECHNICIAN

**Location: Reading**

**Hours: full-time, permanent**

### About us:

Our Reading Plant manufactures Gillette and Old Spice products - some of the world's most popular shaving preparations, deodorants and anti-perspirants. We give our people the opportunity to grow their skills and we actively encourage personal development with a promote-from-within approach. See our skills and qualifications criteria below and make your application if you think this is you.

### What we offer you:

Continuous mentorship – you will work with passionate people and receive both formal training as well as day-to-day mentoring from your manager. A dynamic and respectful work environment where we put employees at the core. We value every individual and encourage initiatives, promoting agility and work/life balance. A competitive compensation and benefits package. This includes pension, life assurance, health insurance, flexible working, a stock ownership scheme and other social benefits.

### Thrive with us:

We are an equal opportunity employer and value diversity at our company. We do not discriminate on the basis of race, religion, skin colour, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status. Our consumers are diverse and our talents - internally - mirror this diversity to best serve it. That is why we're committed to building a winning culture based on inclusion and we would like our applicants to be passionate about the same principle: you will join our daily effort of being "in touch" so we craft brands and products to improve the lives of the world's consumers now and in the future. We want you to be inspired and to thrive with us.

### Your skills and experience:

Ideally you will be joining us from a background where you have applied practical operational skills, including mechanical and electrical and you can demonstrate the following skills:

-Understand and tackle production and equipment related issues.

-Have a high level of personal accountability and ownership for results, not being afraid to seek out challenging tasks.

-Have a passion to look for ways to improve equipment reliability and suggest and implement changes that will help grow the business.

-Be a strong team player who can work collaboratively with teams across an organisation.

-Excellent communication skills both written and verbal.

-An ambitious thinker with the ability to explore new insights.

-Able to clean, operate and maintain equipment.

-A willingness to share knowledge and build capability in self and others.

-Participate in team tasks and activities to achieve desired results.

-Build, own and improve the systems you work on.

-Own overall line/area standards during shifts.

-Ability to respect and follow processes and standards.

-Have a high regard for Health and Safety. You will need to work a rotating shift pattern and be able to provide a thorough handover to the incoming shift and for which you will need top communication skills. We currently operate a 24/5 shift pattern but this can change depending on business needs.
